

TECHNICAL BULLETIN

FOAM DESTROYER™ HMD

Description:

Foam Destroyer™ HMD is an economical, water-based defoamer for wastewater treatment systems. It has proven to be a cost-effective, general-purpose defoamer for wastewater digesters and aeration ponds. Foam Destroyer™ HMD is effective in hot or cold systems.

Typical Applications:

*	Aeration ponds.
*	Digesters.
*	Flumes or outfall.
*	Pulp and paper processing.

Application Methods:

The greatest efficiency is usually achieved by metering Foam Destroyer™ HMD directly into the foaming system (in undiluted form). The best addition points are typically upstream from the point of foam generation and at a point of good mixing.

Product Characteristics (Typical):

Property	Characteristic
Appearance	Opaque, Off-White Emulsion
Density	8.15 Pounds Per Gallon
Specific Gravity	0.98
Flash Point (COC)	Greater Than 200°F

Handling And Storage:

Do not store in close proximity to strong oxidizers. Unopened containers should be protected from direct rain, snow, or sunlight. Seal partially-used containers to protect from contamination or absorption of moisture (which can be detrimental to product quality and performance).
