

TECHNICAL BULLETIN

TAYCHEM SILSOFT NCS

Description:

TayChem Silsoft NCS is a nonionic softening agent designed for application on synthetic fibers. It provides an excellent hand with limited drape for an exceptional feel, especially on broad loom applications.

Recommended Usage:

2 to 3 g/l on spray applications.

Storage Stability:

TayChem Silsoft NCS has a shelf life of at least six (6) months if stored in its original, unopened container at temperatures not exceeding 25°C and protected against freezing. Product may separate upon freezing. Continued storage beyond the designated shelf life does not necessarily mean the material cannot be used. However, renewed testing of the most important properties is imperative.

Safety Instructions:

Comprehensive instructions are given in the corresponding Material Safety Data Sheet. This information is available upon request from TayChem Industries, Ltd.

Because we cannot foresee or control the varied conditions under which this information and materials may be used, we do not guarantee the applicability or accuracy of this information or the suitability of our materials in any specific situation. Samples are provided and users should make their own tests to determine the suitability of our materials for their specific purposes. This material is provided without warranty, either expressed or implied, of fitness for a specific purpose and nothing herein shall be construed as a recommendation for uses which infringe valid patents or as extending license under valid patents.
