

TECHNICAL BULLETIN

TAYCHEM TE-16

Description:

TayChem TE-16 is a sixty percent {60%} solids, low-cost, general-purpose, concentrated, and dilution-stable emulsion of 100-centistoke, hydroxy-terminated silicone fluid.

Typical Properties:

Property	Characteristic
Appearance	Milky Liquid
Solids Content [%]	Ca. 60
pH Value	Ca. 7.0
Ionic Character	Nonionic

Note: These figures are intended as a guide and should not be used in preparing specifications.

Storage Stability:

TayChem TE-16 has a shelf life of at least six months if stored in its original, sealed container at 25°C or 70°F. If the material is kept beyond the recommended shelf life, it is not necessarily unusable, but quality control should be performed on the properties relevant to the application.

Emulsions showing signs of creaming should be agitated before use to assure uniform consistency.

Safety Instructions:

Comprehensive instructions are given in the corresponding Material Safety Data Sheet. This information is available upon request from TayChem Industries, Ltd.

Because we cannot foresee or control the varied conditions under which this information and materials may be used, we do not guarantee the applicability or accuracy of this information or the suitability of our materials in any specific situation. Samples are provided and users should make their own tests to determine the suitability of our materials for their specific purposes. This material is provided without warranty, either expressed or implied, of fitness for a specific purpose and nothing herein shall be construed as a recommendation for uses which infringe valid patents or as extending license under valid patents.
